

Welcome to The Center!

The Biblical Studies Center is a campus ministry to Boise State University and to the Boise community, established in 1973 and located south of Bronco Stadium, a block from University Drive at 1025 Belmont Street. Staff and volunteers are joining God's efforts to transform this humble building into a center for Christian learning and training for leadership. BSU campus ministries come here for meetings and fellowship. However, the Center is not just another, ordinary classroom building. We are filling this place with students who need recreation or a place to just hang out. Some students enroll in an in-depth, accredited class. We encourage an open Bible - open mind approach. We host large group worship times, and big screen TV for viewing special films or ball games. During Bronco football season our front yard hosts giant, pre-game tailgate parties and every Thursday our kitchen features free home-cooked lunches. Also, day or night, many students find a quiet, comfortable place to study or to go on line, using our free Wi-Fi while slurping a cup of our free coffee. What do we call such a place? The name, "The Center" seems to work.

Cornerstone Bookstore ministries provides a Christian book store to the community. Please stop by to visit. [Click here for Cornerstone's site.](#)

The Center is also a place where campus ministries unite for a wide variety of projects and outreach activities.
